

Given below are the names of the Mifflinburg Intermediate School instructional staff. Please keep the following in mind when emailing staff members. Mifflinburg Area School District uses an aggressive spam filter. Always be certain to create a meaningful and descriptive subject line in your message. Also, email that is caught in the filter is often deleted or delayed. Email should be used with caution for time sensitive communications. If you do not receive a timely response, you might want to consider contacting the staff member by way of phone. Colored backgrounds, images, and attachments increase the risk of your email not being delivered as intended. We apologize in advance for any inconvenience or miscommunications resulting from the district's efforts to protect the staff and students from inappropriate content.

Most email addresses are composed, in part, from the first letter of the intended recipient's first name and the recipient's entire last name. When looking at the below list of staff members, names often appear as John Smith with underlined characters. Such a designation indicates that John Smith's address is [josmith@mifflinburg.org](mailto:josmith@mifflinburg.org).
